

CP-Booster

PEROXIDE/ DETERGENT BLEND

DESCRIPTION

The proprietary surfactants and hydrogen peroxide oxidize the soils and stains, and provides color safe bleaching action. Works especially well to remove red wine and other tough stains on hardened polished concrete surfaces. A rinse may be required.

DIRECTIONS

After pre-testing an inconspicuous area for colorfastness, spray spotter directly onto stain. Tough stains may be agitated with a soft brush. Rinse with clean water as needed. After stain removal, use (Hard Surface Cleaner Restorer) with a 3000 grit diamond pad and burnish the cleaned area to a desired shine level.

PRODUCT PROPERTIES

Color: Colorless

Odor: Fragrance Free

pH Solution: 7.5-8.5

Base: Hydrogen Peroxide

Viscosity: Water Thin

Foam: Moderate

Application:

- Recirculating Spray - CIP and COP Washer
- Immersion and Flow Cleaning
- Manual Cleaning
