

# E-12

## SUPER DUTY DEGREASER

**“E-12 Super Duty Degreaser meets and exceeds Green Seal Standard for Institutional Cleaners (GS-37)”**

### DESCRIPTION

Formulated using MicroEmulsion 3G Technology Elements™ Super Duty Degreaser is a non-toxic, non-VOC, biodegradable, micro-emulsion, highly concentrated cleaner/degreaser that is specially designed to address the environmental, safety and health concerns facing today's housekeeping professional. The formulated blend of ingredients combine to lift and emulsify soils, fats, oils and greases with out the use of solvents. Can be used to clean most hard surfaces such as walls, tile and grout, food processing and service areas.

### DIRECTIONS

**For General Cleaning of Unfinished Floors, Walls, and Fixtures:** Dilute concentrate 8 ounces per gallon of cold water and apply with a mop, sprayer or sponge. Allow to stand a few moments and wipe off or rinse clean with water.

**For Food Processing Areas and Equipment:** Dilute concentrate 10 ounces per gallon of cold water. Mop, spray or sponge onto surface and allow to stand a few moments. Surfaces that come directly in contact with food require a potable water rinse; otherwise rinsing is not usually necessary.

**For Heavy Duty Degreasing and Industrial Cleaning:** Dilute concentrate 16 ounces per gallon of cold water. Mop, spray or sponge onto surface and allow to stand at least 5 minutes. Scrub or brush thoroughly and rinse with clean water. The above directions are flexible rather than specific. Generally, a more dilute solution can be used, while for extreme conditions a less dilute solution may be needed.

#### Application:

- Immersion and Flow Cleaning
- Manual Cleaning

### PRODUCT PROPERTIES

**Form:** Liquid

**Color:** Purple

**Odor:** Citrus

**pH:** 10.5-11.5

**Recommended Dilution:**  
1:8-1:64

**Foam:** Moderate
